REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The compound of formula I with specific R¹, R², R³ and R⁴ groups, composition and the method of use for treating HIV, AIDS or ARC as embraced in the instant invention were not found to be anticipated or rendered obvious by the prior art of record. The closest prior art Kaltenbach et al. US 6,391,919 teaches N-benzyl glycine analogs instead of phenyl, pyridinyl, pyrimidinyl, pyrazinyl or pyridiazinyl substituted N-cycloalkyl glycine analogs embraced in the instant claims. Additionally, prior art search in the relevant art area yielded no references teaching or suggesting the compound of formula 1 with bearing specific R¹, R², R³ and R⁴ groups, composition or method of use embraced in the instant claims. Therefore, the examiner noted that the claims 1-15 would be in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
